46.5%
31.9%
6.8%
14.4%

Band 1	Check-ups, scale and polish	46.5%
Band 2	Fillings, extractions, root canals	31.9%
of which 2a 20.7% · 2b 10.9% · 2c 0.4%		
Band 3	Crowns, dentures, bridges	6.8%
Urgent	Urgent appointments	14.4%

URGENT CARE AS A SHARE OF UDAS

0%	6.5%	8.2%	13%
----	------	------	-----

8.2% required from April 2026

UDAs weight each course by complexity, so urgent care is a smaller share of UDAs (6.5%) than of courses (14.4%).

**ACCESS WITHIN BRENT** ^[1] 22 wards, adults

Roundwood		47.7%
Stonebridge		46.0%
Harlesden & Kensal Green		45.0%
...		
Alperton		28.7%
Wembley Central		27.1%
Wembley Park		16.6%

Adult access ranges from 16.6% in Wembley Park to 47.7% in Roundwood, a gap of 31.1 points within the borough, wider than the gap between Brent and the England average.

WHAT WOULD MAKE THE BIGGEST DIFFERENCE LOCALLY

- Dentistry named in Integrated Neighbourhood Teams
- A route for practices into local prevention programmes
- Access to the NHS Spine and the Single Patient Record

 CHILDREN'S ORAL HEALTH ^[3] tooth decay is the most common reason a child under 10 is admitted to hospital

**FIVE YEAR OLDS WITH TOOTH DECAY**

**43.4%**
London 27.4% · England 22.4% · 2024 survey

**CHILDREN UNDER 10 ADMITTED TO HOSPITAL TO HAVE DECAYED TEETH REMOVED**

**220**
In 2024/25, up 5% on 2023/24 (210)

**HOW THE NHS DENTAL CONTRACT WORKS**

-  There is no NHS dental registration. A practice is contracted to deliver a set amount of activity each year and is paid for that activity, not for a list of patients.
-  Once that activity is delivered, a practice cannot take on more NHS patients. More patients means more contract value, which is a commissioning decision.
-  The contract is national and pays only for defined courses of treatment. There is no mechanism within it to fund prevention work or joint working with local services.

**ABOUT THE LDC CONFEDERATION**

The LDC Confederation is the membership body for London's four Local Dental Committees, the representative bodies for NHS dentists. Together we cover 22 boroughs and around 3,000 NHS dentists. North West London LDC covers Brent, Ealing, Hammersmith and Fulham, Harrow, Hillingdon, Hounslow, Kensington and Chelsea and Westminster.

We bring dental intelligence into local planning, connect partners with practices in the borough, and cascade information and opportunities to them.

 **A note on this data**

These figures describe people who were seen by an NHS dentist, not the oral health of those who were not, who are concentrated in the most deprived parts of the borough. Higher access is not in itself a good result: it does not show whether the people with the greatest need are being seen, or whether they are receiving the right care. London and England figures are context, not a benchmark. Being above an average does not mean residents are receiving the care they should.
